

CONCERT-STYLE SOMSAK CIMBALOM

Beautiful and rock solid, this 4 1/2-octave cimbalom has a metal A-frame to protect it from ever warping — a signature feature from master cimbalom craftsman Bela Somsak.

Other Somsak benefits include use of piano-tuning pins, right-handed tuning and frame cut-away to improve comfort when playing. Comes with mallets, tuning tool, chair, tone layout plus video interviews with the maker.

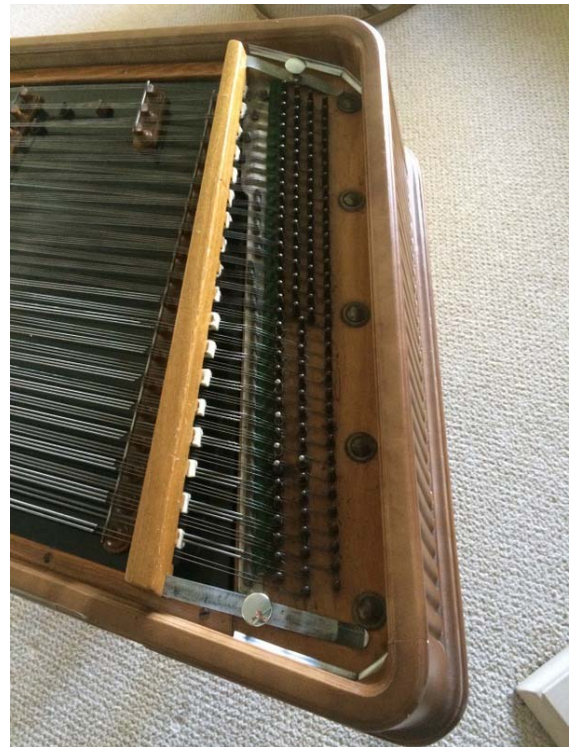

Dimensions: 54 inches wide nearest the musician, narrowing to 37 inches. 30 inches deep and 31 inches from the ground to the playing surface. Four sturdy legs unscrew for easy transportation. Weighs about 180 lbs.

\$3,999 + shipping from the San Francisco Bay area.
